Professional Summary

Artificial Intelligence graduate student with experience in machine learning, data science, and automation. Skilled in building end-to-end AI systems including convolutional neural networks, classification models, and data pipelines. Experience working with real-world datasets, preprocessing workflows, and model experimentation. Interested in applying AI to solve practical problems.

Technical Skills

Programming: Python, SQL, Java

Machine Learning: Scikit-learn, TensorFlow, CNN, supervised learning, model evaluation

Data: data cleaning, data preprocessing, feature engineering, exploratory data analysis (EDA), data pipelines

Tools: Git, GitHub, Jupyter Notebook, Power BI

Other: API integration, automation, VBA, PowerApps, experimentation

Projects

Audio Classification with CNN

- 1 Developed a CNN model for audio classification (happy vs stressed)
- 2 Built preprocessing pipeline using log-Mel spectrograms
- 3 Applied data augmentation through segmentation
- 4 Evaluated model performance on labeled dataset

Newsletter Processing AI Agent

- 1 Developed AI agent to process and summarize newsletter emails
- 2 Built data pipeline for filtering and structuring content
- 3 Implemented Python scripts for preprocessing
- 4 Generated structured reports with key insights

Electromagnetic Transients Classification

- 1 Developed CNN model for electrical signal classification
- 2 Applied preprocessing and feature extraction
- 3 Evaluated model using real-world data

Experience

Maintenance Engineering Intern – SLB (Aug 2023 – Jan 2024)

- 1 Developed logistics tracking application using PowerApps
- 2 Automated reporting using Excel VBA
- 3 Applied data analysis for process optimization

Regulatory Analyst – Energy & Mining Planning Unit (Mar 2024 – Dec 2024)

- 1 Performed data cleaning and preprocessing on large datasets
- 2 Validated and filtered project data
- 3 Supported data-driven analysis and decision-making

Training & Market Research Associate – Kapta

- 1 Analyzed electric vehicle market data
- 2 Conducted research on emerging technologies
- 3 Developed technical materials and presentations

Education

MSc Artificial Intelligence (In Progress) – Universidad de los Andes

BSc Electrical Engineering – Universidad de los Andes

BSc Electronics Engineering – Universidad de los Andes
